“

With a rich and diverse legacy of 17 years in the construction sector, Akash Construction is one of the leading and most reputed construction firms in the state of Gujarat and Uttarakhand. Since our inception in the year 2007, we have consistently advanced and established ourselves gaining immense expertise in the field of construction. We have handled a wide range of diverse projects including multi storeyed buildings, factories, residential buildings, administrative buildings, institutions.

At Akash Construction, we have always believed in being committed to our customers in terms of excellence, quality satisfaction and precision. We excel in providing comprehensive services to our customers including internal and external water supply, electrification, plumbing, sanitary installations, site development, road construction, hard standings, and area drainage. With our expertise in various construction endeavors, we are well-positioned and well equipped in offering comprehensive turnkey services. With a team of immensely skilled and well trained professionals, our dedication lies in ensuring that we meet and go beyond the standard of our customers.

”

**We  
Believe  
in and  
Promote  
Quality  
Delivery**

## **Our Vision**

At Akash Constructions, our vision is to create and innovate leaving our customers mesmerized and offer them sustainable and effective construction solutions while managing to stand out when it comes to aesthetic appeal.

## **Our Mission**

Our mission is to be the foremost choice for our customers and lead the construction industry in not just the state of Gujarat, but the entire nation by delivering high quality and exceptional construction solutions to our customers.

## Mr. Hitesh Ishwarlal Bhavsar

With over 25 years of experience in the industry, Hitesh founded Akash Constructions with the vision to build it from scratch and reach out to wide range of customers offering the best construction solutions. Hitesh is dedicated to revolutionizing the construction industry with his innovation and excellence.

Hitesh comes from a background where his expertise lies in stuttering, centering and concreting in the construction industry. Hitesh is also deeply involved in industry associations and initiatives. His commitment to staying abreast of the latest construction technologies and methodologies ensures that Akash Constructions remains a leader in the field for decades to come.

## Mr. Amish Jaysukhbhai Bhavsar

Amish is the General Manager of Akash Constructions and has over 25 years in the construction industry. With his expertise in rate analysis, estimation, costing. Amish has been at the forefront for the finance and management of the Akash Constructions.

Amish is also responsible for the distribution of work at Akash Constructions and it is his leadership that enhance the performance and efficiency of Akash Constructions.

Our dedication and passion lies in establishing ourselves as the pioneer of the construction industry. We offer high quality services to our customers in infrastructure, industrial & commercial constructions, abiding to regulations and ensuring timely customer satisfaction. We are committed to ongoing improvement of our services through regular reviews of our quality management system.

## Objectives :

- Assure customers of our continuous improvement in business processes and meet customer expectations.
- Deliver quality projects adhering to timelines.
- Enhance the capabilities of our employees with excessive and continuous training and development programs.
- Adhere to Environmental, Health, and Safety standards, striving for a **"Zero-Accident"** goal on site.
- Allocate and utilize financial and physical resources efficiently.
- Elevate the capabilities of our vendors and sub vendors.

An extremely well established construction company in Northern and Western India, Akash Construction specializes in civil, structural and allied services, complemented by essential equipment along with specialized contracting support. When it comes to safety and security, we are committed and dedicated to striving for the best safety record and upgrade it annually.

Safety is an utmost concern that remains at the forefront of our minds every single day and it cannot be ignored under any circumstances. Management plays a pivotal role in upholding and maintaining standards of safety at all levels especially in hazardous working environments.

Akash Constructions considers effective management of safety as a significant aspect of its business operations, and expects the company to :

At Akash Constructions, our vision is to create and innovate leaving our customers mesmerized and offer them sustainable and effective construction solutions while managing to stand out when it comes to aesthetic appeal.

- Develop and implement a detailed policy which will ensure that safety matters are given proper consideration
- Take all essential and practical measures to safeguard the safety and welfare at work of all employees and others who may be affected by our activities, and to comply with all statutory requirements and code of practices.
- Take responsibility for personal safety as well as of others' safety who may be affected by their acts of omissions.
- Cooperate with management and any other personnel to enable the company to fulfil its legal obligations.
- Refrain from interfering or misusing anything provided in the interests of health, safety or welfare

The Factories Act, 1918 and any other act applicable to construction industries, any regulations covered by these acts, and any other work/site safety rules must be compiled with at all times and all employees must contribute to making the company work areas as safe as possible.

The company will provide the necessary resources to ensure the implementation of the safety policy and will give full backing to all these coordinated to achieving the policy objectives.

The company will provide health and safety training to their personnel in order to :

- Meet the company's statutory obligation.
- Prevent injury, ill-health and dangerous occurrences.
- Ensure all tasks are undertaken by competent and skilled workers

All employees bear responsibilities under the policy and must ensure that all legal and statutory requirements are adhered to at all times. The company carries out several operations where safety must be prime consideration and where the full satisfaction of legal requirements may not necessarily be sufficient. Accordingly, those who authorize work to be carried out at any time must ensure that all aspects of safety are taken into account completely when formulating their instructions. While the company accepts and acknowledges its prime responsibility for ensuring the safety & welfare of its employees, it is expected that all employees take the responsibility of their own safety where they are required to.

## Our Values

- Providing efficient & timely deliveries.
- Ensuring safety and security of our employees as well as our customers.
- Integrity and transparency.
- Sustainable and creative construction solutions.

### **Providing Value Add to Our Customers**

We commit to maintain and establish a long lasting and reliable relationship with our customer centric approach. We conduct effective and creative brainstorming sessions and identify cost efficient and time bound solutions throughout the entire construction procedure to assure our customers that their satisfaction is what matters the most to us.

### **Adherence to Timelines**

With our in house proficiency and expertise in mechanical, electrical, structural and architectural engineering, we promise to deliver the best construction solutions to our customers ensuring customer satisfaction. We ensure successful completion of our projects identifying key challenges and recognizing solutions at an early stage in the construction process.

### **Quality Service**

We do not compromise when it comes to quality at Akash Construction as we undertake and execute significant measures to guarantee premium quality services to our customers. Starting right from the step of selecting the appropriate raw material to implementation, we meticulously delve into the construction procedure and take complete ownership of our work.

Safety - We value safety and security of our employees and hence undertake all the necessary steps to safeguard our employees which helps them which helps us foster stronger relationships with them. We follow a no drug and alcohol policy at our work sites which results in a safe working environment for our employees.

### **Our Expertise**

Our experience and our past projects speak volumes. We have been credited with several prestigious construction projects and our client testimonials are sufficient to serve as a testament of our capabilities and strengths.
